

# CARE, CLEANING AND ACTIVATION

The Vinyl Window and Door Institute recommends the following:

## RECOMMENDED

*\* to clean interior woodgrain or exterior beige and cocoa, use **ONLY** mild soapy water.*

- Formula 409
- Ajax Liquid Cleaner
- Murphy's Oil Soap
- Lysol Cleaner
- Soft Scrub
- Vinegar and Water

## NOT RECOMMENDED

*\* may cause vinyl to yellow*

- Clorox
- Pine Power
- Ivory Liquid
- Grease Relief
- Tide
- Nail Polish Remover
- Gasoline or Turpentine

For the best results, Republic recommends store-bought glass cleaners, soapy water or a mild vinegar and water solution. Wipe dry with a soft lint-free rag, or try an old-time method that really works - newspaper.

## CLEANING & CARING FOR

Use mild, soapy water to clean windows with Stay Clean glass. Avoid scouring pads, Comet, Soft Scrub, Ammonia and alcohol-based products. To ensure a lifetime of performance for Stay Clean Glass, it's necessary to use the after-care program once a year. The after-care kit, can be obtained through Republic by calling 312.932.8000 or at [www.republicwindows.com](http://www.republicwindows.com). The cleaner is \$15.00, including shipping.

## CLEANING & ACTIVATION\* OF

To activate the Simple Glass coating, mix one part vinegar and one part water. Wipe this solution onto the exterior side of the glass. Activation will not cause a visible change in appearance. Use mild soapy water to clean windows with Simple Glass. Avoid scouring pads, Comet, Soft Scrub, ammonia and alcohol-based products.

\*If not activated by your installer.
